

# SCHOOL VALUES

Berwick Fields began with these four core school values: **Respect**, **Friendliness**, **Enthusiasm** and **Cooperation**. These four values were decided upon in our school's first year of opening. Families were surveyed on what they thought were the most important values we would like our school community members demonstrating on a continuous basis.

It is important that our whole school community; staff, students and parents, demonstrate these values and model them to the wider community.

## How can we demonstrate our school values?
